founder

Whether it's through innovative marketing campaigns, compelling storytelling, or immersive customer experiences, my goal is to connect deeply with audiences and leave a lasting impression. By understanding the unique essence of each brand and the desires of its target market, I create strategies that not only stand out but also resonate on a personal level. The journey involves continuous learning, adapting to new trends, and always striving for excellence. In every project, I aim to elevate the ordinary into something extraordinary, crafting not just brands, but legacies.

Krupa Gajera

Keydot, a graphic design studio based in Ahmedabad, India, founded by Krupa Gajera. Specialized in branding, the focus of our work is to develop visual identities, through printed and digital solutions for any kind of client. We explore concepts, to relate customer and company, having as a principle the clients claims, always favoring direct contact with them. We help brands tell their story.

Work diligently and play creatively every day. Our focus encompasses strategic planning, innovative design, and successful delivery.

Portfolio for Food Industries

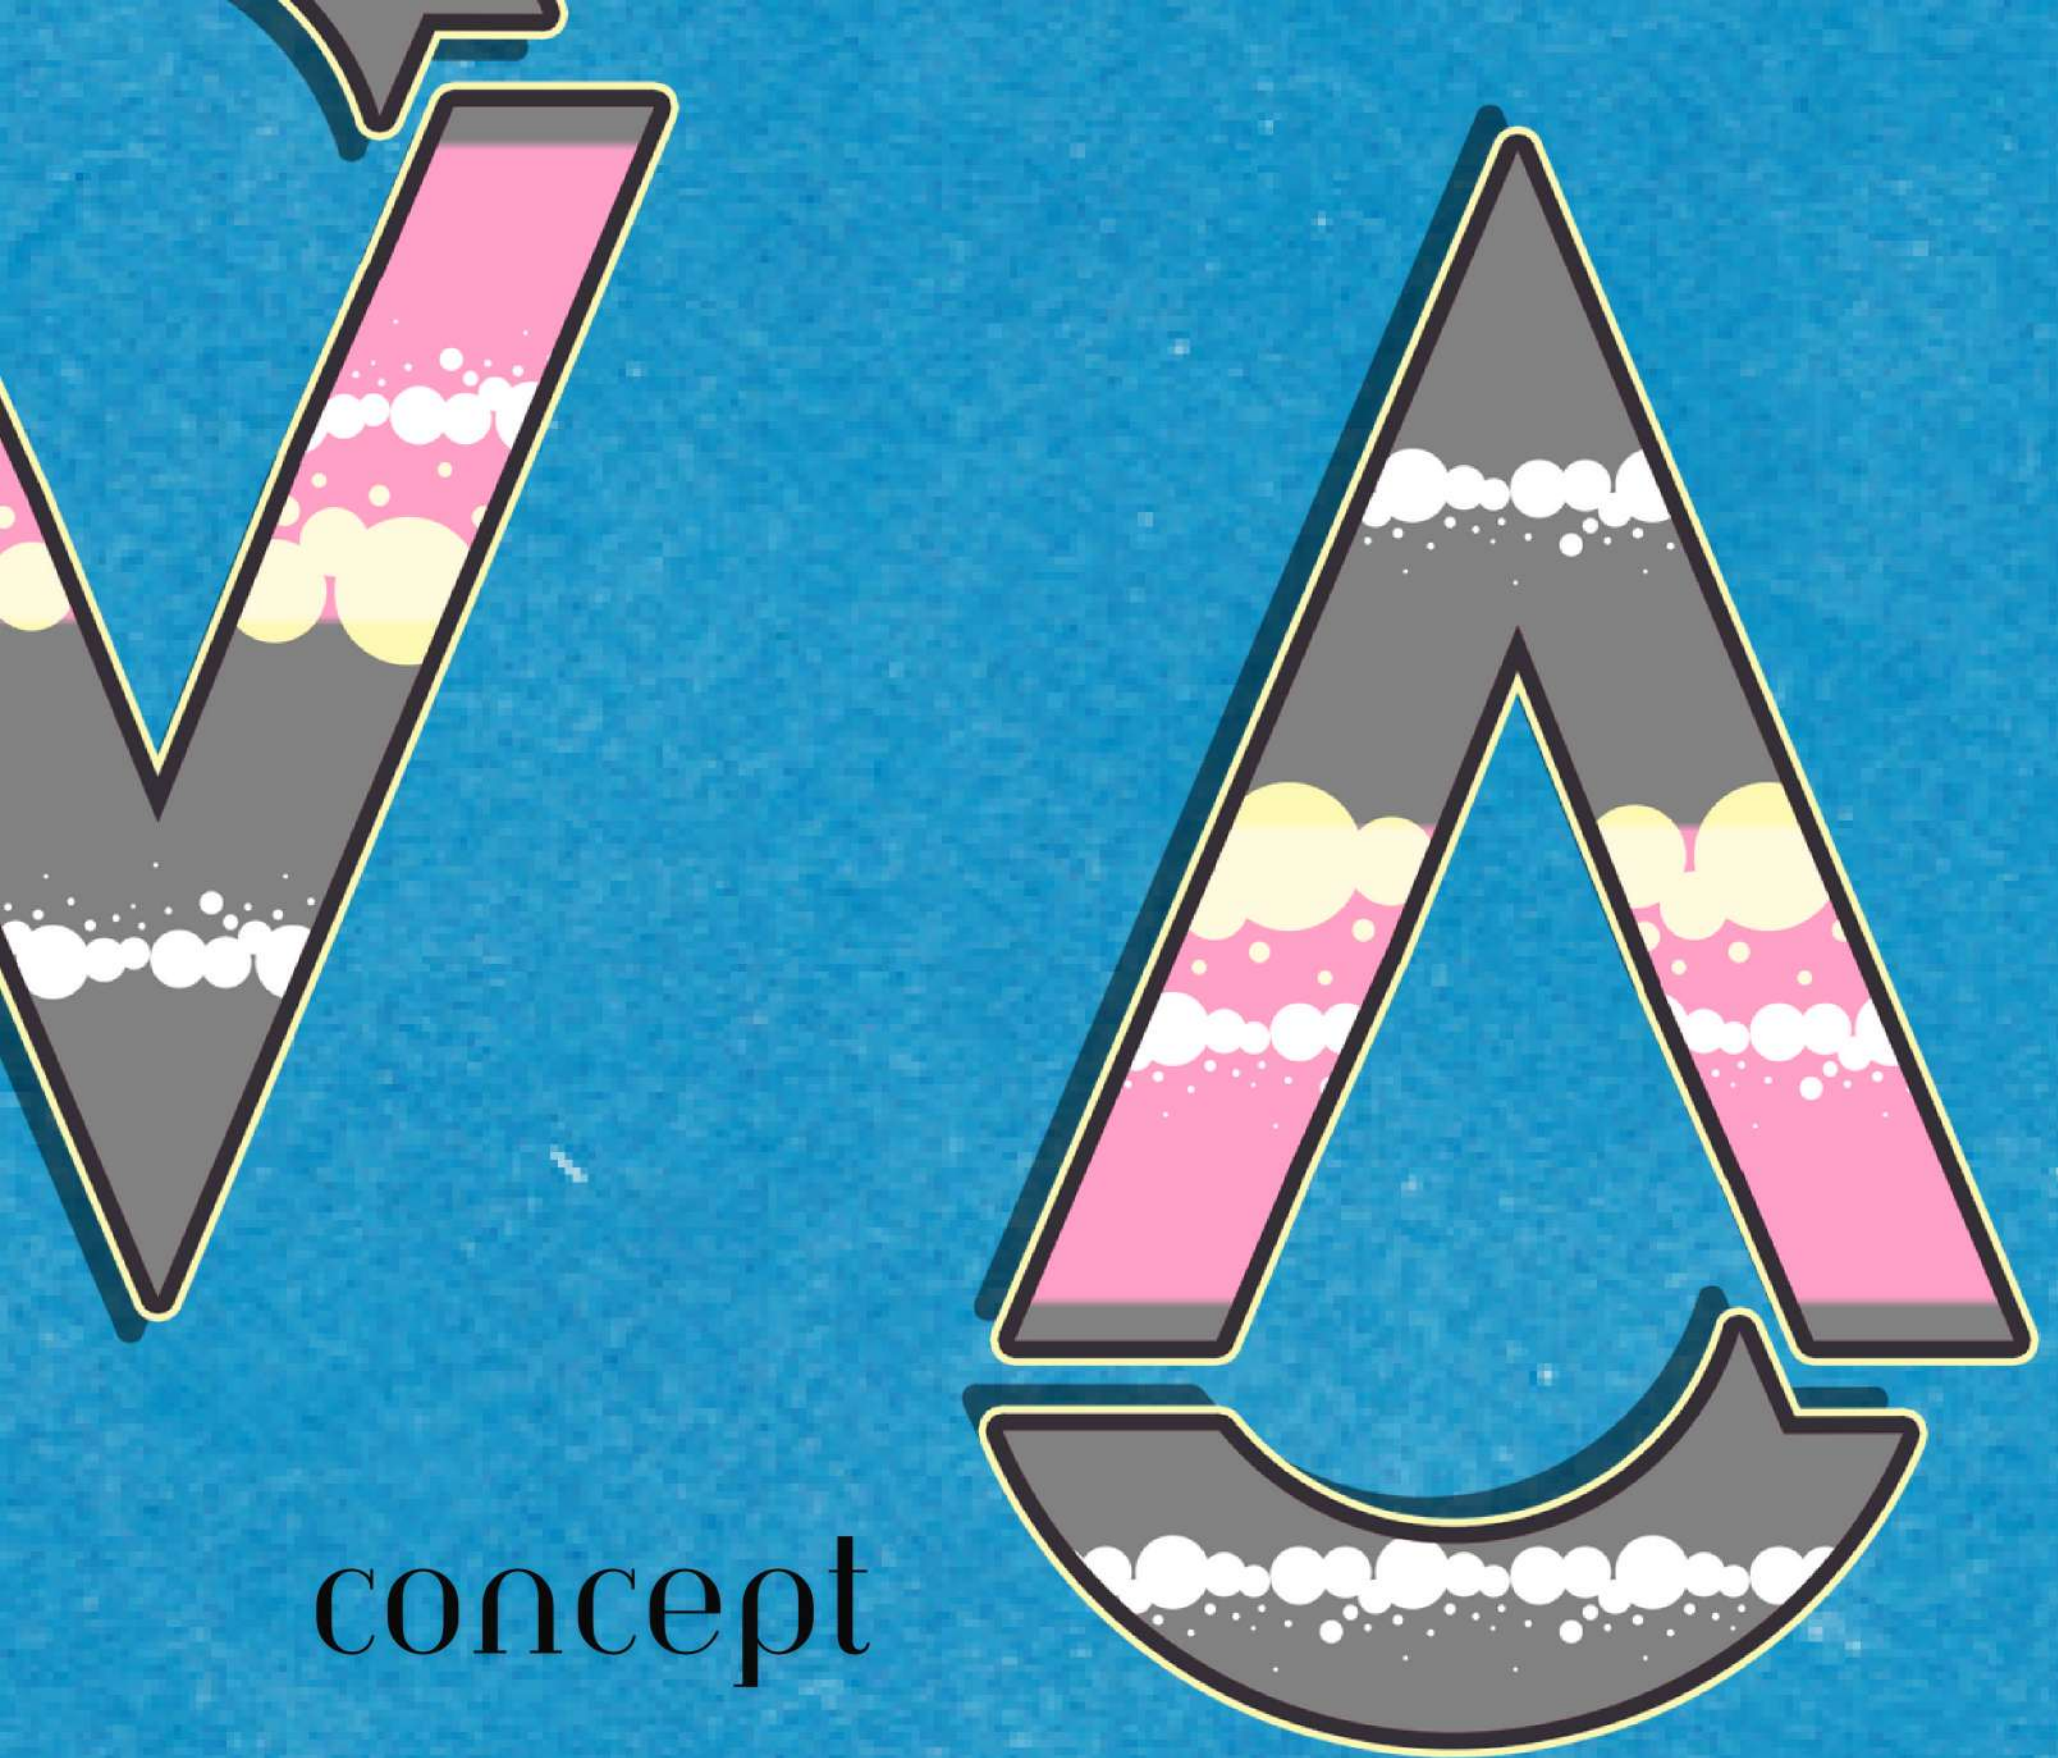

We are young, and

"Fall in Fresh" s design captures the essence of refreshing indulgence. Imagine a logo bursting with vibrant colors – cool blues for icy beverages and cheerful pink for creamy ice cream. The font can be playful and handwritten, evoking a sense of fun and discovery. Packaging utilizes clear, minimalist designs that showcase the vibrant colors of the ingredients. Illustrations of fresh fruits and playful ice cream swirls can adorn the packaging, adding a touch of whimsy. Social media presence features mouthwatering photos and short, engaging captions that entice customers to 'fall in fresh' with the brand's delicious offerings."

concept

Fall in fresh is a company focused on experiences in the world of Ice cream & drinks. The products are delicious, and the releases usually have a touch of innovation. The guiding concept for the brand's labels is the word "explosion": flavors, senses, originality, colors, and textures. 100% exclusive illustrations complete the labels and tell the brand's story in an artistic manner.

TEA ROOTS

Tea Roots' logo embodies the brand's connection to the earth and the origins of its teas. Imagine a stylized illustration of a tea plant's roots, reaching down into the soil. The roots can be rendered in a simple, elegant line style, or with a touch of organic texture. The brand name, "Tea Roots," can be set in a clean, serif font, reflecting a sense of heritage and quality.

TEA ROOTS

BURGER BULLS: BITE INTO BOLD

"The Burger Bulls logo is a stampede of flavor. Imagine a bull, a symbol of strength and heartiness, charging forward with a juicy burger held high. The design could be bold and graphic, with strong lines and vibrant colors like red and yellow, reflecting the fiery taste of a perfect patty. Alternatively, a more minimalist approach could feature a stylized bull's mouth cleverly incorporating the shape of a burger. The typography should be powerful and slightly aggressive, hinting at the irresistible force of a Burger Bulls experience. This logo design should make customers feel like they're about to conquer a truly delicious burger."

BURGER MAGICS

Fresh. Flavorful. Unforgettable

Take a NUT'S

Make Bond to the Nature

Concept: A brand that celebrates the natural goodness and energy boost of nuts. The design aims to be approachable, yet modern, appealing to health-conscious consumers who appreciate quality ingredients.

Take a NUT'S

THIS SHAPE REPRESENT AS
ALMOND

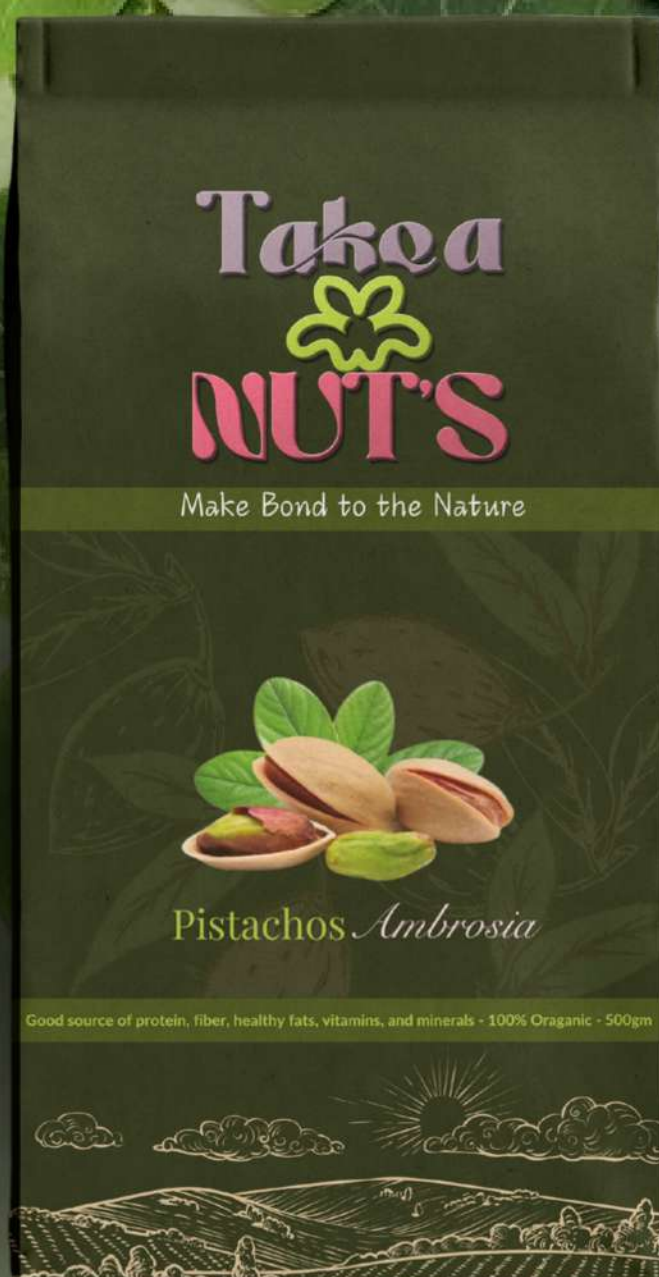

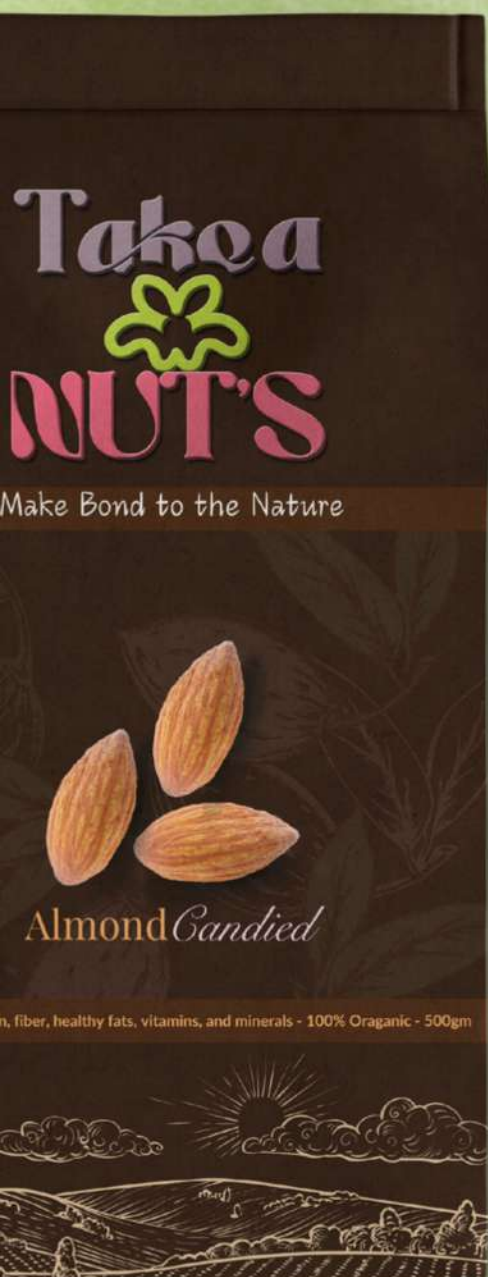

REPRESENT AS CASHEW

Make Bond to the Nature

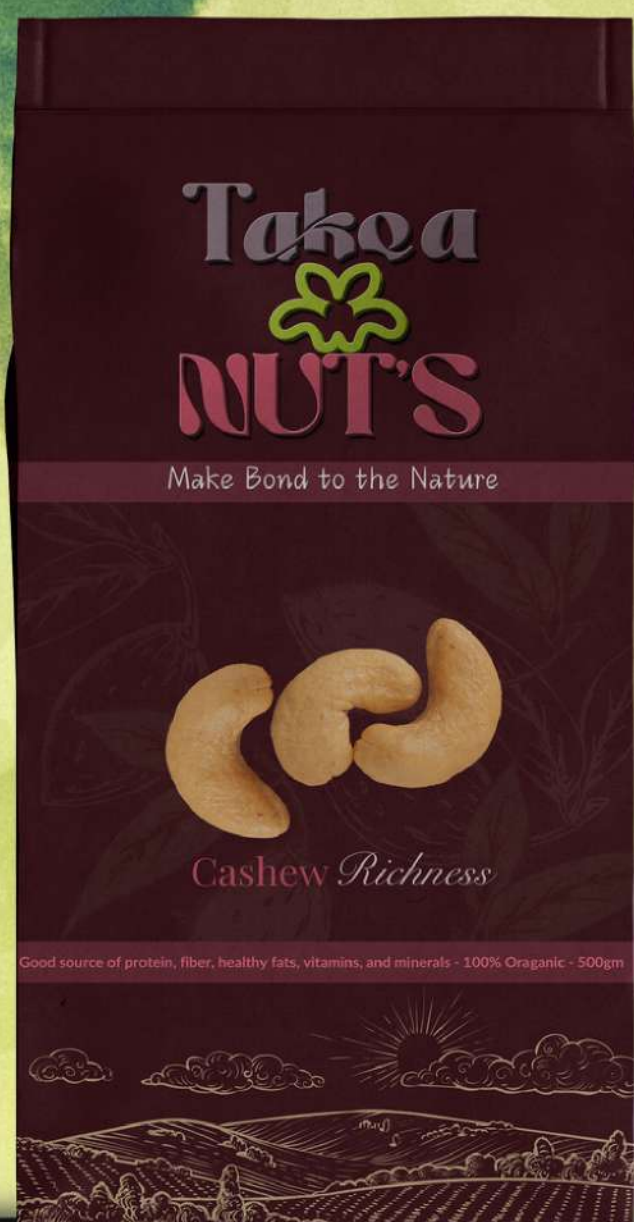

TAGLINE

The challenge was brand and packaging creation for 3 flavors of dried fruits each product contains a rich, Natural flavor, no additives or artificial flavor enhancers.

"Take a Nut's" are our bond to the nature. the shapes of fruits and clean approach to the packaging designs subconsciously highlight the simple and natural ingredients contained within each pack. The simplicity of the packaging conveys the freshness of the dried fruits through visual means.

Fresh. Delicious. Eye-catching

A captivating pizza brand design simmers with the essence of its delicious product. The logo could be a playful slice or a bold, wordmark silhouette. A fiery purple and a cheesy yellow dance in the color palette, while fresh greens might hint at premium ingredients. Whimsical illustrations on packaging could showcase mouthwatering toppings, or elegant typography could convey a sophisticated, gourmet experience. Ultimately, the design should whet the appetite, reflect the brand's personality, and leave a lasting impression as memorable as that perfect slice.

PIZO'Z

tagline

EMBARK *on*
A CHEESE TOUR

concept

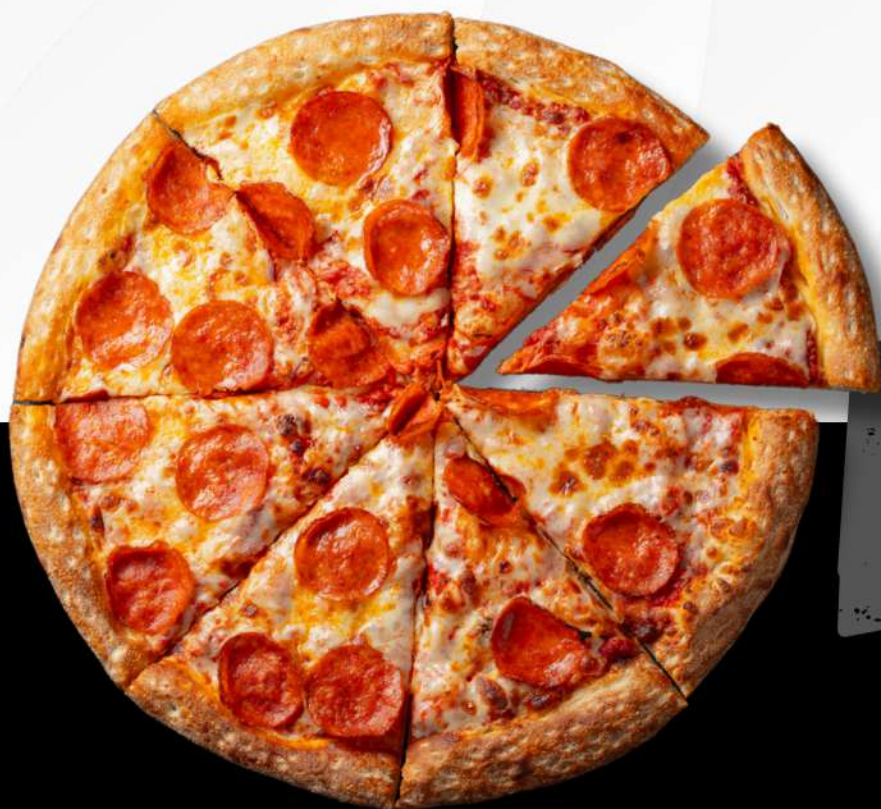

PIZO'Z

PIZO'Z

PIZO'Z

The brand name "Pizo'z" derives from the fusion of "Pizza" and "cheese ('z)," symbolizing the essence of the brand. This metaphorical choice effectively embodies the brand's commitment to offering pizzas that are not only delicious but also an artistic experience for the senses.

In order to evoke specific emotions in customers and immerse them in the brand's essence, the color yellow was strategically chosen. Its warm, cheerful, inviting, and energetic qualities perfectly encapsulate the brand's desire to create an enjoyable and sunny ambiance that complements the taste, aroma, and overall experience of their pizzas.

MITHAI

Logo: Mithai : "Mithaa Hai's logo can be a delightful brown & orange colors, resembling a melting creamy sweets. The brand name can be written in a playful, handwritten font, with a slight tilt to evoke a browns creating a cheerful and inviting aesthetic."

Social Media Poster Design: "Mithaa Hai's social media posters should be a celebration of indulgence. Mouthwatering close-up shots of sweets can be the centerpiece, accentuated by pops of the logo's colors. The text overlay can be short and sweet, using phrases like 'The weekend craze' or 'Love At First Bite' written in a fun and readable font."

mitha hai

Indulge, savor, and cherish - Indian sweets! " mithai "
New Brand Identity & Product Design

Mithai serves a variety of 'Indian Sweets'.

The colours chosen are pastel that represent all the basic primary and secondary colour palette, as the brand has a variety of items that it sells and they needed a very colourful approach for the same.

SHIPWALL

PROJECT FOR AUSTRALIAN COMPANY

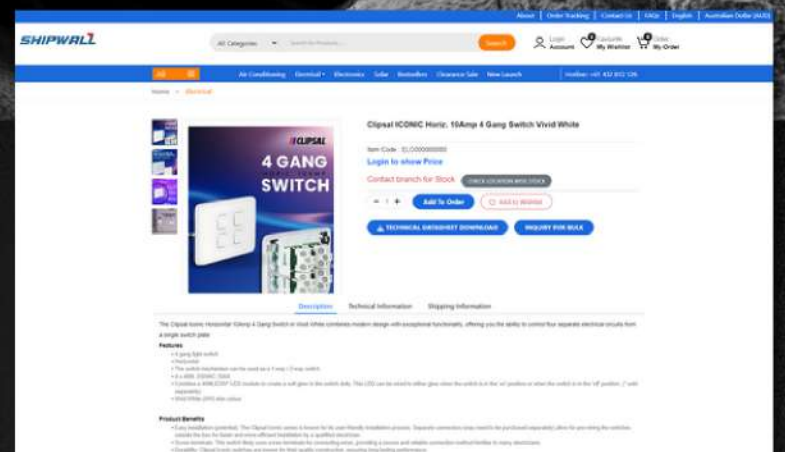

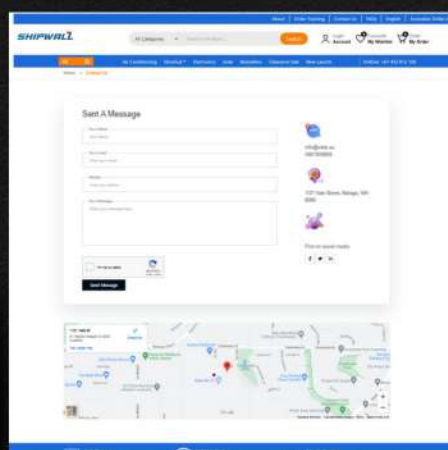

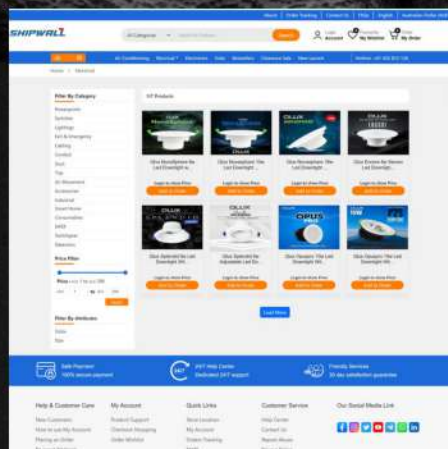

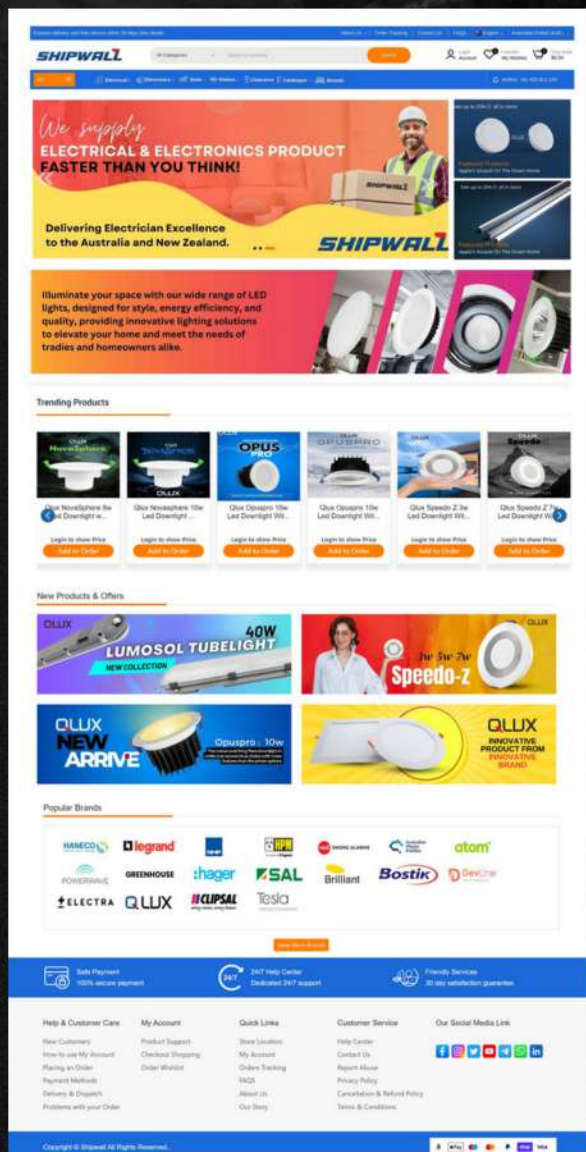

Elevated the online presence of an Australian electrical goods shipping company through comprehensive design solutions. Created a user-friendly and visually appealing **website layout PDF**, outlining a clear and engaging structure. Additionally, designed a captivating **product catalogue** that showcased their electrical goods with a focus on user-friendliness and brand alignment. This **Adding the products seamlessly into the website**, ensuring a cohesive and effective customer experience for browsing and purchasing electrical goods.

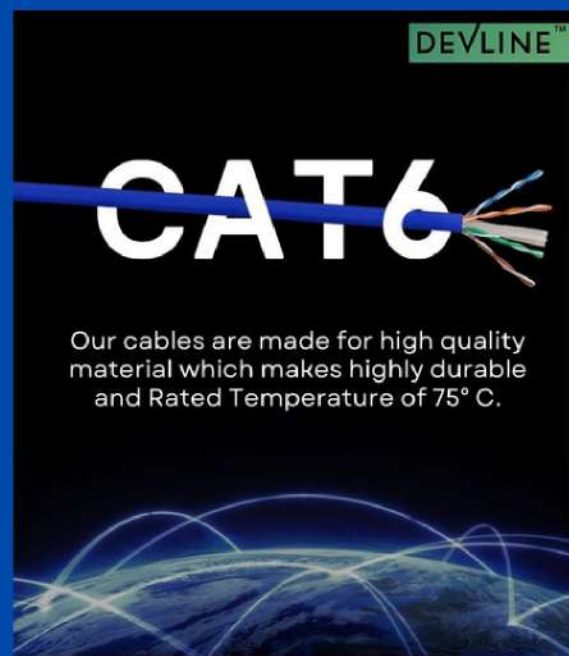

CATALOGUE DESIGN

Developed a captivating catalogue for Shipwall electrical goods shipping company, showcasing their products in a visually engaging and informative layout. The design prioritized clear product presentation, user-friendly navigation, and brand alignment. This resulted in a compelling marketing tool that effectively communicates product value and enhances the customer experience.

WEBSITE LAYOUT DESIGN

Designed a comprehensive website layout PDF for Shipwall, outlining a user-friendly and visually appealing structure for their website. The PDF detailed the placement of key elements, navigation flow, and information hierarchy, ensuring a seamless user experience. This deliverable effectively communicated my design vision and facilitated clear communication with the client.

DCWC6UL305BL
CAT6 CABLE 4 PAIR 23 AWG U/UTP LOW SMOKE ZERO HALOGEN BLUE 305M DRUM

This high-performance cable delivers the speed, reliability, and safety you need for demanding network applications. Here's why it's the perfect choice for your business:

Features

- Rated temperature: 75°C
- Reference standard: UL444, ANSI/TIA-568-C.2 ISO/IEC 11801 Class Ea, IEC 61156-5
- Product standard certification
- Flame test
- Meets Australian Standards
- Oxygen free copper conductor
- Colour-coded PE insulation

Product Benefits

- Cat6 supports Gigabit Ethernet (GigE) speeds of up to 10Gbps over a distance of up to 50 meters
- When exposed to high heat, LSZH cables produce minimal smoke and fumes, which is crucial for safety in buildings with many occupants.
- Cat6 cables are built to withstand wear and tear. The solid 23 AWG copper conductors are more durable than stranded conductors

Technical Information

BRAND	DEVLINE
MODEL NO.	DCWC6UL305BL
CONDUCTOR MATERIAL	SOLID BARE COPPER
INSULATION MATERIAL	PE
FILLER MATERIAL	PE
OPERATING TEMPERATURE RANGE	-20 °C~+75 °C
BULK CABLE WEIGHT APPROX	47.0 KG/KM
JACKET MATERIAL	LSZH

Cable layout:

Application
100Base-T4, 100Base-TX, 100VG-AnyLAN, 1000Base-T, 1000Base-TX, 155Mbps ATM, 622Mbps ATM, 10 Gb Ethernet, 2500/5000 Multigigabit Ethernet and Meets the performance requirements of IEEE 802.3an.

Manufacturer's trademarks may vary, all other trademarks are the property of their respective owners. Product design subject to change without prior notice.

PRODUCT DESIGN AND ADD IN WEBSITE

Designing and integrating new products directly into their website. This involved creating the product Images, datasheets and details, ensuring they were visually appealing and functional. I then seamlessly added the products to the website, maintaining brand consistency and user-friendliness. This comprehensive approach resulted in a more engaging online experience for customers, allowing them to easily discover and purchase the new products.

OM POWER PRODUCT DESIGNS

CATALOGUE - 3D PRODUCTS -WEBSITE DEVELOPMENT

I possess a well-rounded skillset encompassing graphic design, 3D design, and website development. I leveraged this experience to create a comprehensive product catalog for a OM POWER company. This included crafting compelling graphic design elements, developing realistic 3D product models, and building a user-friendly website to showcase the company's offerings. This project effectively communicated the company's products and brand identity to a wider audience.

COMPANY PROFILE

ABOUT COMPANY

One power founded in 2018, is a leading one-stop power supply solution manufacturer specializing in led lighting power supply. With market leading industrial power supply product range include led tube light driver, led downlight driver, led waterproof driver and more provide advance power supply solutions with an emphasis in product quality and reliability. We have fully manual development centers in the Ahmedabad, Gujarat, India. Although one power has a standard line of products, we also work with customers to supply them with customized products meeting their needs.

MISSION
Precision manufacturing is instrumental in driving technological innovation.

VISION
In a time where customer satisfaction is crucial, our goal is to surpass customer expectations through ongoing enhancements in our quality system.

VALUE
Customer-oriented, simplicity, win-win solutions, professionalism, and passion.

OM POWER

01 Known and Trusted manufacturer

02 Reputation for Quality & Services

03 Diversified in Technologies Served

04 Number 1 Independent Innovator of New technology

05 Manufacture the most innovative, essential components in the industry.

06 Making led drivers more relevant, differentiated and profitable.

SMART TECHNOLOGY

CONSUMER BENEFITS

Energy Savings
Highly efficient material ensures saving upto 50%

Sleek & Compact Design
Elegantly designed which ensures large amount of applications - indoor & outdoor lights

Long Life
Perfect material as it ensures high energy saving with long service life

Maintenance Free
The highly efficient electronic drivers ensure maintenance free and long service life

Eco Lighting Solution
pollution free solution without any mercury or lead content.

THE FUTURE OF LED CONTROL

3D Modeling for Optimized LED Driver Design

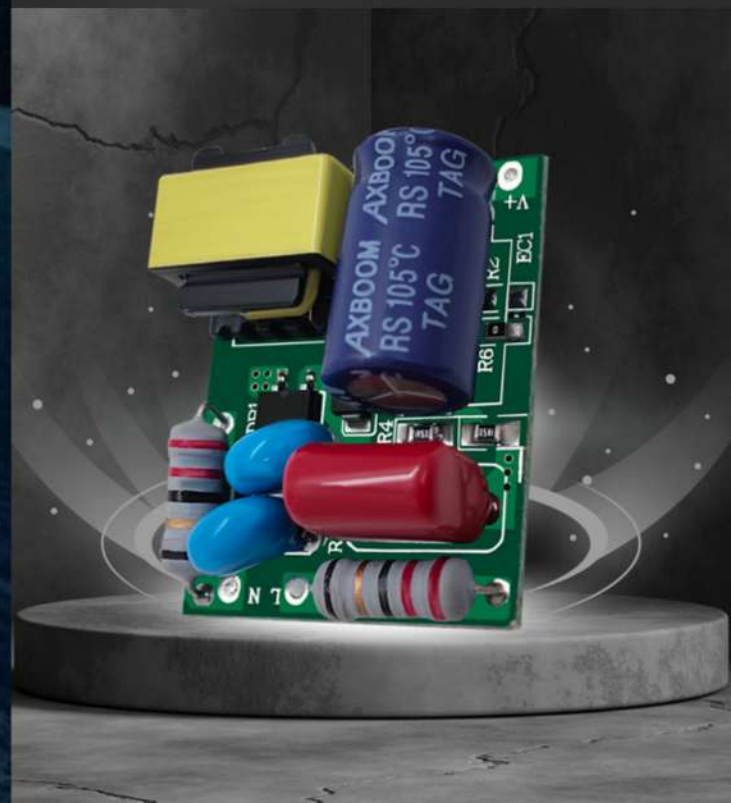

Leveraging our 3D modeling expertise, we created highly detailed and accurate models of LED drivers. These models were instrumental in visualizing the product for clients, ensuring proper component placement during the design phase, or streamlining the manufacturing process. Our ability to translate complex electrical components into clear and concise 3D representations demonstrates our proficiency in 3ds max.

LED FLOODLIGHT FIXTURE

An aesthetically designed compact yet robust floodlight housing. Its square shape aluminum die cast housing enables passive cooling design which ensure longer life for the light.

NEW

TWO TYPE POWDER COATING USED
1. EURO GRAY PP TEXTURE
2. CERAMIC GRAY PP TEXTURE

ABOUT
Body & Finished

Housing:
Die cast aluminum body, durable powder-coated finish

Reflector:
White plastic reflector cup using nanotechnology, Anti-UV.

Cover:
4mm thickness Toughed glass, Anti-UV, High light transmittance reaches more than 90%, with strong sealing performance.

Screws:
Stainless steel

Bracket:
Metal powder-coated finish, 360° rotation for better beam angle of light.

Gasket & Groomet
Silicon Gasket, PC Groomet material

Waterproof body fitting

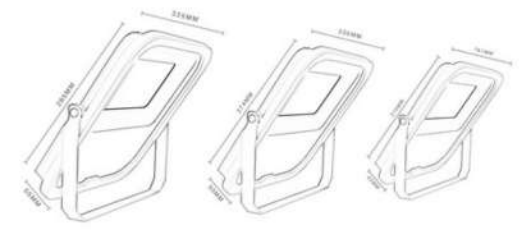

IP65

360° degree stand rotation
